Graphic designers, photographers, cartoonists, illustrators, and other artists use Photoshop to enhance images for their various works. There are a variety of tools in the program that enable you to edit, create, and add multiple layers of elements to achieve the final image you need. Here are some common uses of Photoshop, along with exercises that help you learn its more complicated functions and techniques. I describe these exercises in depth in Chapter 5:

- Editing photos and repairing images
- Improving the look of photographs
- Adding background elements
- Enhancing colors and contrast
- Converting your images to black and white
- Changing the appearance of objects
- Photographic effects like HDR, burn, dodge, and clone
- Creating drawings
- Adding layer effects
- Adding film grain effects

Photo retouching is the most common use of the program. You may use Photoshop for simple color adjustments, simple image repairs such as repairing blemishes on your image and red eye, and color correction. It's also a highly useful tool for making basic photo effects. Color correction is an often-overlooked aspect of good photography. This is the task of making the colors in the image look correct. A difficult task if the colors in your image are off for any reason. If the subject is yellow and the background is blue, the colors are not correct. Some of the more basic techniques in photo retouching are discussed in Chapter 7. The more advanced tools and techniques that are available in Photoshop are covered in this chapter. However, I start out by demonstrating how to edit a photo with the default settings in Photoshop. Photoshop is an extremely powerful tool, but like many powerful tools, it can be overwhelming if you start out with no experience using it. Examining the Basic Edit Functions Photoshop has an intuitive interface that enables you to quickly access the tools you need. Most of the time, when you click a tool in the Tools panel, the tool is highlighted (look for the tool's name or symbol next to the icon). In most cases, you can click a tool and it takes you right to its onscreen use. The following exercises walk through the basics of Photoshop. The channels panel Many different versions of Photoshop exist on a single computer, and one of the easiest ways to tell them apart is by viewing the channels panel, located in the top left corner. Each photo that

Toxicity assessment of the new arylimidazole KR2-43. The toxicity of the new arylimidazole KR2-43 was evaluated by oral and dermal administration in mice. The LD50 values by oral or dermal administration of KR2-43 were estimated to be 4.37 and 2.41 g/kg, respectively, which were relatively higher than those for imiquimod (2.15 and 1.22 g/kg, respectively). KR2-43 was administered to mice daily for 2 weeks at the dose of 60 or 120 mg/kg by oral administration or 0.15 or 0.30 mg/kg by dermal administration. Neither symptom nor death was observed in these mice. In addition, KR2-43 was administered daily for 4 weeks at the dose of 120 or 240 mg/kg by oral administration or 0.15, 0.30 or 0.60 mg/kg by dermal administration to mice. Moreover, changes in the body weight were not observed in these mice. These results indicate that KR2-43 has a low toxicity and is a promising compound for adjuvant cancer therapy. They're out in force to say thanks to Craig and Danny for the unparalleled show they put on for us last week... .. But keep in mind, this is most likely going to be the last round of the season, as we announced at the beginning of this show. After this we have 3 more weeks of The Amazing Race, culminating at the finish of the season in San Francisco on Sunday, May 17th, the day before we all come together at the end of the second leg of the season. In order to appease you guys, we've added a new "thank you" section below where we'll keep posting the top facebook comments from the entire "wishlist" thread as well as the top comments from the Slackfest thread. We'll also be starting a new "Please Vote" section where we encourage you to vote for the more deserving teams that we know got your vote, but some teams didn't get enough votes to qualify for the final leg. We'll be adding a couple of new sections as well, which include our weekly food and drink taste tests and interviews. Also, we'll be rolling out at least one new section every week, so be on the lookout for it! This week's #AllEars our visit was recorded live on Tuesday, April 24th, at 7:
